

**FIBREGLASS
POOL BUILDER
OF THE YEAR
2019 · 2020 · 2021**

Our **promise** to you -
there simply is no **better**
swimming **pool**

The Aqua Technics story

Aqua Technics has been manufacturing award-winning fibreglass pools for 45 years. We have the best range of technologically advanced swimming pools, manufactured in our purpose-built production facility, the largest in Western Australia.

Over forty five years on we are still a family owned and operated company. Our pools are built to stand the test of time and are distributed all over WA, the Eastern states and many countries around the world. Our ultimate goal is to ensure families will enjoy their swimming pool and create a lifetime of happy memories.

WE MANUFACTURE THE VERY BEST FIBREGLASS POOL AVAILABLE ANYWHERE IN THE WORLD. BUILT TO LOOK BETTER AND LAST LONGER.

The Aqua Technics edge

GRAPHENE NANO TECHNOLOGY

Revolutionary process infusing graphene nano technology into every Aqua Technics pool. Built like no other, a Graphene Nano-Tech pool is our strongest pool ever.

FADE RESISTANT

Aqua Technics pools have patented Pool ColourGuard® surface technology, which resists the effects of UV rays and chemicals, offering advanced fade-resistant protection.

QUALITY ASSURED

Certified to build to AS/NZS 1838:2021 under license BMP 520101. We are measured and tested by an authorised, independent auditor. Anyone can say they build to the Standard. For your peace of mind always ask for a license number. We also comply to the AS/NZS ISO 9001 Quality System.

LIFETIME WARRANTIES

Pool ColourGuard® Limited Lifetime Interior Surface Guarantee and Extended Lifetime Structural Warranty - our commitment to providing extended warranties above those standard in the SPASA contract.

PRECISION MOULDS

New designs are built to exacting tolerances. The edge beams are true, the shapes geometrically perfect and the surface finish is without peer.

SUPERIOR STRENGTH

Full sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the pool is independently structural and has no need for secondary engineering works.

SUPERIOR MATERIALS

All pools are manufactured using high performance, corrosion resistant, eco-friendly fibreglass with improved strength and stiffness. Our onsite gelcoat manufacturing facility means daily batching of materials for a better product. Only speciality materials are used - no general purpose products.

MADE IN WA

All pools are individually made to order to suit local conditions at our state-of-the-art Jandakot manufacturing facility, the largest pool production premises in WA.

Our purpose built manufacturing facility

Our world-class production facility has been purpose-built for the manufacture of fibreglass swimming pools. Here we can build a technologically superior product of the highest quality.

Along with our state-of-the-art facility, we can proudly boast to having our own in-house raw materials production division. This allows us to freshly batch our raw materials on a daily basis, which is extremely important in order to produce a superior quality product.

Each of our pools is manufactured in accordance with a Quality Management System as per the requirements of International Standard ISO 9001 and supplied to comply with AS/NZS 1838:2021 under license number BMP 520101. Obtaining this accreditation means we are measured and tested by an authorised, independent auditor and is not easily achieved. Any pool builder can say they build to, or better than, the Australian Standard. For your peace of mind, always ask for a license number. We also have International Council Code Accreditation ICC-ES - 1 of only 5 companies globally.

OUR PROMISE TO YOU, THERE SIMPLY IS NO BETTER SWIMMING POOL.

Why we only build pools with 200mm edge beams

The design of the 200mm edge beam means the strength is engineered into the pool, making it structurally sound all by itself. Secondary engineering works are not required because the pool structure is built stronger and will last longer than any other.

BUILT like
no other pool

GRAPHENE
NANO-TECH

Pools made
STRONGER
than ever before!

Ground-breaking Graphene Nano-Tech

ADVANCED TECHNOLOGY IN FIBREGLASS POOLS

Graphene Nano-Tech is a revolutionary process infusing graphene nano technology in every Aqua Technics pool. Developed here in WA, over 3 years of research and development has been carried out to incorporate graphene into the composite layers of our pools, creating a totally new patent-pending construction process that is the next generation of fibreglass pool technology.

30%
stronger

Graphene is 200 times stronger than steel & stronger than titanium, giving you our strongest pool ever

Increased strength & rigidity of the pool's structure

Higher impact & flexural strength

30%
lighter

Our new technology reduces weight while improving rigidity and flexural strength

Pools are stronger without being heavier

Lighter for transport & crane lifts

Higher
resistance

A Graphene Nano-Tech pool has a higher resistance to water and moisture transpiration and chemical attack

Increased laminate durability

Improved corrosion barrier

The world's first fade-resistant surface protection system for fibreglass pools

- 1+2** Both layers are manufactured using the highest water and chemical resistant materials
- 3** First structural layer and third water and chemical resistant layer
- 4** Second structural layer using Graphene Nano-Tech, microfibres, fibreglass and vinyl ester resin
- 5** Second Graphene Nano-Tech structural fibreglass layer over reinforcing formers and bracing - increased strength and stiffness
- 6** Exterior waterproof membrane containing Graphene Nano-Tech - protects the pool laminate from outside

Vinyl ester resin is used in all layers except the clear gelcoat layer in contact with the water.

Patented dual gelcoat layer, superior surface protection and colour retention. Two layers fused together to provide increased water resistance and colour fastness.

ADVANCED PATENTED TECHNOLOGY IN 27 COUNTRIES AROUND THE WORLD

Superior
Surface Protection
POOL COLOURGUARD®

The only dual surface protection system

Only Aqua Technics can offer you a patented surface protection system for fibreglass pools that resists the effects of ultra violet rays and chemical attack. It's like sunscreen for your pool, protecting it from colour loss and weathering. Incorporating a specialised dual gelcoat system as part of the manufacturing process, two layers are merged to provide extraordinary surface protection.

With a brilliant, high gloss finish your pool will maintain its beautiful appearance thanks to the innovative and unique Pool ColourGuard® technology. We dare you to compare.

Australia's Most Awarded
POOL COMPANY

Over
230
AWARDS

Aqua Technics is Australia's most awarded swimming pool company, having received numerous local, national and international Awards of Excellence. We have over 17 international awards - proof that the quality of our pools is recognised the world over. In 2019, 2020 and 2021 we were awarded Fibreglass Pool Builder of the Year at the SPASA Awards of Excellence.

The contemporary style of the Piazza Series will complement any outdoor area and not become dated in years to come.

Valentina - Indigo Snow

Piazza Series Features

Wide seating ledge - running the length of the pool, perfect for taking a break and relaxing or splashing with the kids

Safety ledge on Siena and Torino - providing added safety and peace of mind for children learning to swim

Alto and Latina - deep plunge style pools perfect for courtyards

Uninterrupted swimming area - end to end swimming in the larger designs

Corner side entry steps - easy access in the shallow end.

Saint-Remy - Twilight

Resort **SERIES**

Enjoy an indulgent pool and spa combination in your own backyard with the Resort Series.

Saint-Louis - Horizon

Resort Series Features

- Large entry zone with generous second step area
- 2.0m x 1.86m spa seats up to 6 adults with 2 recliner seats and bench seating
- Spillway between the spa and pool, with the water cascading into the pool
- Long 450mm wide bench seating
- Deep end step for easy exit from the pool
- Variable skimmer box location - flexibility to suit the position of water features

Tuscany Series Features

Unobtrusive, side-entry steps

Deep end swim-outs for entry, exit and relaxation

Ideal for swimming laps or family entertaining

Tuscany **SERIES**

Sleek and sophisticated, the Tuscany Series has been designed for more narrow spaces without compromising on features and style.

Compact **SERIES**

The Compact Series features the very latest in geometric pool designs created specifically to suit small spaces.

Compact Series Features

Slimline design perfect for narrow spaces

Unobtrusive side entry steps on both sides, allowing greater choice of pool position

Extended second entry step that can be used for seating

Harmony - Hamptons Blue

Escape to paradise with the Villa Series and experience a luxurious hideaway in your own backyard with this stylish design.

Villa Series Features

Entry steps in the shallow end for easy access

Wider second entry step on the Paradiso, Sentosa, Terazza and Elysian creates a perfect relaxation zone

Paradiso and Sentosa feature slimline design

Paradiso
5.5m x 2.15m
Depth 1.05m to 1.6m

Sentosa
6.5m x 2.15m
Depth 1.05m to 1.75m

Istana
6.2m x 3.3m
Depth 1.2m to 1.68m

Terazza
7.3m x 3.3m
Depth 1.2m to 1.76m

Elysian
8.3m x 3.3m
Depth 1.09m to 1.76m

Innovation **SERIES**

Innovative design techniques bring you these stylish pool models that are exclusive to Aqua Technics.

Capricorn - Horizon

Innovation Series Features

- Stylish, curved side-entry step area
- Extended seating ledge running the length of the pool
- Optional spa jets for soothing hydrotherapy massage

Lap Pool Series Features

Twin side entry steps along one side

Safety ledge on both sides

Large, uninterrupted lap swimming area

Constant 1.4m depth

Sleek and stylish, the Lap Pool Series is perfect for serious lap swimmers or those who simply want more space to enjoy.

Lap Pool **SERIES**

Transform your outdoor area into a modern entertainment centre that will be the envy of your friends with our Roman Series.

Pantheon - Cyber Blue

Roman Series Features

Triple side-entry steps and deep end swim-outs

200mm edgebeams for added structural strength

Generous depths of 1.1m to 1.89m

Step out to your very own outdoor retreat with the Oasis Series. With curves in all the right places, these kidney shaped designs are sure to impress.

Oasis Series Features

Extended second step offering a generous seating space

Deep end swim-out ideal for relaxing

Range of options including spa jets and swim jets

AT770 - Autumn Grey

Aqua Ledge
4m x 2m
Depth 175mm

Create resort style living in your own backyard with the Aqua Ledge addition and start planning your relaxing family staycation today.

Aqua Ledge Features

4m long x 2m wide

Consistent depth of 175mm

Can be added to any Aqua Technics pool that is 4m and above in width or length

Colour can be matched to your pool

Add lounges to create the ultimate adult poolside relaxation zone

Avellino & Aqua Ledge - Moonlight

Centro

Create your dream outdoor entertaining area with a spillway spa or wading pool to complement your new pool.

Como
1.63m x 1.63m
Depth 0.65m

Como Features

2 recliners, 2 bench seats,
1 therapy seat

Seats up to 5 people

Centro
2.2m x 1.8m
Depth 1.0m

Centro Features

Seats up to 7 people

Continuous bench seating

2 corner steps

Rio
2.2m x 1.8m
Depth 0.35m

Rio Features

Kids wading pool

Ideal paddling area

Commercial POOLS

For as long as we have been installing our pools into the backyards of WA families, we have also been completing commercial projects, both big and small.

Our commercial division has installed pools all over Western Australia, from the very far north down to the Lord Forrest Hotel in the south-west and across to the east. If you have ever been to Cable Beach Resort in Broome you would have spent many an hour relaxing in their beautiful swimming pools, built by Aqua Technics Commercial.

Our commitment to quality in both design and workmanship was rewarded when we received the WA Pool of the Year award at the Swimming Pool and Spa Association Awards of Excellence. We also recently received local and national gold for our custom designed fibreglass pool at The Adnate Hotel located in the Perth CBD.

We have completed projects for the following applications:

- Residential complexes including apartments
- Mining sites
- Resorts and hotels
- Group accommodation facilities
- Purpose-built custom fibreglass designs

When you buy the very best pool there is, you want the very best landscaping and accessories to go with it.

Imagine finishing your new pool with stylish paving, planter boxes filled with your favourite plants, a soothing water feature and modern glass fencing together with advanced automatic pool equipment that works cleverly to reduce your pool maintenance and operating costs.

Aqua Technics can offer a complete pool and landscaping package with attention to every last detail. From recommendations and advice right through to installation. For all the extras, simply speak with one of our expert Sales & Design Consultants.

Aqua Technics can assist you with:

State-of-the-art pool pumps, filters and automatic cleaners

Pool heating including gas and electric
